ABOUT THE COMPETITION CLASSES PRE-REGISTRATION REQUIREMENTS FOR 2025-26:

So that we have a clear understanding of students' aspirations and how to evaluate returning competitors and new competition hopefuls during auditions, as well as have a framework for team placement considerations during Jump-Start Intensives, **students are required to pre-register for the 2025-26 dance season classes BEFORE competition auditions. This pre-registration can be completed online with just the \$20 yearly non-refundable family registration fee and should include all classes that the student is interested in competing for the 2025-26 dance season.** (Exception: solos - which require registration and payment in full upon solo enrollment, with solo registration launch day being April 18th starting at 6pm online.) Students will not be able to audition without completing this easy online preregistration of their desired comp classes process.

Steps To Auditioning for the 2025-26 Dance Season - Including New Considerations:

1. Pre-register for desired 2025-25 classes online on the studio website - stagestarzdance.net - under the "Comp Classes Registration" dropdown menu and then by clicking "Register Here for 2025-26 Comp Classes". Add all desired classes to your registration by clicking to register, including the click to add the \$20.00 yearly family registration fee. You can access descriptions of each team and the prices for classes for our comp levels when online by clicking on the corresponding tabs for - Minis, Petites, Juniors, and Teens in the "Comp Classes Registration" dropdown menu. Pay only the \$20 yearly reg fee to complete the pre-registration process for comp classes (exception: solos are prepay for the dance year). Your first month's tuition payment will be due by August 1st to confirm your registrations and finalize your enrollment.
2. Register online for our Competition Auditions which will include a competition participation fee for the 2025-26 dance season of \$85 due along with the student's comp audition registration. Deadline to register is May 17, 2025. Register online at stagestarzdance.net under the "Comp Classes Registration" dropdown menu and then by clicking into "Register Here for 2025-26 Comp Auditions". The \$85 Stage Starz yearly participation fee for competition is set in place to help offset costs of running the competition program such as Mason facilities rental, music, music licensing fees, additional rehearsals, choreography planning, props - and much more. To ensure students take the audition process seriously, the \$85 yearly participation fee will be due with the audition registration. Students who do not place for Stage Starz competition participation will be refunded the \$85 fee. Students who are accepted for participation, but later choose to resign their spot, will not receive a refund.
3. **NEW CONSIDERATIONS FOR COMP PARTICIPATION APPROVAL:** Acceptance into our competition company and placement on teams or with comp duo or trio partners will be based on such physical considerations as skill level, potential, and age. We also will be considering more intentionally than in prior years such factors as **attitude, respect, cooperation, participation, commitment, history of frivolous absences, motivation, and dedication** demonstrated by the dancer - and in some instances by that of the parent or guardian where it effects the students participation, or the attitude reflected back from the parent by the child.
4. Participation in our 6-day (2-day for 2025-26 Minis) Jump-Start Summer Intensives is **MANDATORY** for all competition students.

Additional requirements for Competition Dancers: Stronger technical training. To quote one professional echoing multitudes more, "Becoming a competitive dancer is like building a house from the ground up. You can't start by adding the roof and interior decorations. Rather, you must start by creating a solid foundation to support the structure and make it last. Similarly, a dancer should establish a foundation in technique before adding all the tricks and performance quality. And that foundation according to dance teachers and professionals in the field, is ballet." Ballet – the foundation of all dance. Ballet is the ABC's of dance. Ballet is like eating your vegetables. Everyone would love to just eat candy. But everyone must have their veggies for a proper diet. A proper dance "diet" should include ballet. Most dance schools recommend ballet technique for their dancers, and almost all dance schools require ballet technique training for their competition dancers. Articulation of the feet and legs, strong and graceful arms and placement of the hips and alignment of the spine are all things that ballet focuses heavily on and carries through to other dance styles, particularly jazz, lyrical, and contemporary. Most professionals recommend that ballet is the single-most important key to a strong foundation in dance. It contributes to focus, musicality, alignment, artistry, grace, core strength, posture, poise, balance, flexibility, agility, diminished injury, clean lines, strong arms, proper arm placement, straight legs, pointed toes and a clean, polished, technically correct performance for all of your dance styles.

Our Teens competition students are required to take comp ballet technique. While not mandatory, we also highly recommend ballet tech class for Minis, Petites, and Juniors. You can register for supplementary Ballet Tech classes for your level by clicking into "Register Here for Comp Classes" under the "Comp Classes Registration" dropdown menu.

We additionally offer Flexibility & Conditioning and Turns, Leaps, & Jumps classes. These technique enhancing classes are also not mandatory for competitors, but are highly recommended for dancers seeking a higher level of clean lines, increased extension, and greater agility and control for a polished, next-level performance.

COMPETITION SOLOS: you are interested in doing either a standard or competitive solo for the 2025-26 dance year, please note the following information. We are only able to offer 14 solo slots for the 2025-26 dance year. Solos are pre-pay for the dance season with a tuition of \$475. Solo refund info: In the event, that a student registers for a solo with the intention to compete the solo and auditions for a competition solo and is not selected for competition for the solo during auditions, the student can opt to use their solo slot for a standard solo or resign their solo registration and be refunded. This opt-out solo refund specific only to reasons of failure to place for solo competition participation will only be given upon request within two weeks of the emailed audition results. No other refunds shall apply. Due to the popularity of solos and the limited number of solo slots, we must adhere to a strict no refund policy so that students do not hold slots with the intention of making a more sincere commitment at a later date - thus taking advantage of the next student's opportunity.
